RESPONSE TO RESTRICTION REQUIREMENT

The Patent Office required an election under 35 U.S.C. § 121 of one of the following inventions:

I. Claims 1-2 drawn to a configuration file with communication identification information that is a property of the file but accessible without opening the file, classified in class 709, subclass 221; and

II. Claims 3-42, drawn to a program to access a configuration file and which are both accessed by a physical address, classified in class 709, subclass 227.

Applicants provisionally elect to prosecute Claims 3-42 of Group II. The election is without traverse.
